

# August 21, 2017: the great American eclipse

- Rare opportunity to examine our state of knowledge about fundamental processes responsible for ionospheric behavior
  - Studies at Haystack Observatory: Evans 1965, Salah 1986
- Unique opportunity to leverage advances in research instrumentation and modeling
- Best possible coverage

# Upcoming special sessions

- Fall AGU meeting – December 11 & 13, 2017, New Orleans
- AMS (American Meteorological Society) meeting, January 8, 2018, Austin, TX
- GRL special issue: submission open until December 31, 2017; 20+ papers expected

# What do you see?

Sebastijan Mrak, BU

Phil Erickson, MIT
